Cohesive e-waste movement

WE HELP ORGANISATIONS RECYCLE WITH JOY!

Responsibly recycle your e-waste and create a positive social and environmental impact by enrolling in Karo Sambhav's Bulk Consumer Programme

AS A BULK CONSUMER OF ELECTRONICS YOU ARE RESPONSIBLE FOR THE E-WASTE YOU GENERATE

E-waste is one of the fastest growing waste streams and a cause of grave concern globally. India's estimated e-waste generation in 2016-17 is 18-20 lakh tonnes.

In 2016, Government of India notified the E-waste (Management) Rules 2016 which lay down responsibilities of various stakeholders in the e-waste management chain like producers, bulk consumers, dismantlers, refurbishers, collection centres, dealers and recyclers.

According to these rules, bulk consumers (government departments, PSUs, banks, multinational organisations, international agencies, educational institutions etc.) are now required to:

- ✚ Channelise e-waste through authorised and designated take back channels of producers.
- ✚ Maintain records of e-waste generated by them.
- ✚ Ensure that their e-waste is not admixed with other e-waste containing radioactive materials.
- ✚ File annual returns to the concerned State Pollution Control Board on or before 30th of June of the following financial year to which the returns relate.

As per the Guidelines on Implementation of E-Waste (Management) Rules, 2016:

- ✚ The bulk consumers should ensure that e-waste generated by them is handed over ***only to producer*** take back system or to authorised dismantler/recycler ***who is part of producers take back/channelisation system***.

GO BEYOND COMPLIANCE- JOIN A COHESIVE E-WASTE MOVEMENT

Organisations that believe in creating a positive social and environmental impact should think beyond fulfilling the legal needs.

Karo Sambhav does not only offer you complete assistance in fulfilling your responsibilities as a

bulk consumer, but also enables you to become an inspiration for other other organisations. We also do not charge consumers for the services we offer.

The Karo Sambhav Bulk Consumer Programme:

- ✚ Offers 100% assurance that the e-waste will be handled, dismantled and recycled in an environmentally sound and socially responsible way
- ✚ Enables use of the Best Available Technology (BAT) in India for recycling
- ✚ Ensures seamless Extended Producer Responsibility (EPR) implementation by using Karo Sambhav mobile app
- ✚ Provides data required for filing of annual e-waste returns to Pollution Control Board
- ✚ Enables institutions to conduct awareness campaigns

ABOUT KARO SAMBHAV

Karo Sambhav is a tech-enabled, environmentally beneficial and socially responsible e-waste Producer Responsibility Organisation (PRO). Karo Sambhav's members include prominent brands namely Apple, Dell, HP and Lenovo.

We have set-up an India-wide transformative solution on e-waste management with the aim of making recycling a way of life. We make it possible for people and institutions to responsibly recycle their electronic waste.

International Finance Corporation (IFC, part of The World Bank group) has also partnered with us for a pan-India project on the development and implementation of a PRO solution for the industry.
